

MASTER'S THESIS WORK – CFD at FS Dynamics

COMPANY BACKGROUND

FS Dynamics is an independent consulting engineering company group specialized in advanced simulations and analysis of fluid- and structural dynamics. The company employs more than 100 consultants in Sweden. All consultants in FS Dynamics are holders of a master's degree and about 25% hold a Ph.D. exam.

THESIS OBJECTIVES

We are looking for a master thesis student that is interested in writing their master's thesis at FS Dynamics. The thesis work is about CFD and simulations will be run on our cluster with our Fluent or StarCCM+ licenses. Moreover, you will be able to work from our office in Lund. Feel free to contact us if you have an interesting CFD project in mind.

STUDENT PROFILE

We are searching for students interested in writing their master thesis within the field of CFD, for instance students from solid and mechanics, structural or civil engineering. Prior knowledge of Ansys Fluent or StarCCM+ is of advantage.
